# NOW'S THE TIME, PACIFICA!

## Why do we need new libraries?

- Our libraries have served the Pacifica community well for decades, but they are outdated, inefficient, and inaccessible by modern standards.
- Pacifica's children, teens, families, and seniors deserve safe learning and social environments for generations to come.

## What is the Library Modernization Project?

### The Project features:

- A complete rebuild of Sharp Park Library, creating a new, full-service building.
- Renovations at Sanchez Library to meet modern standards and provide 24/7 access to books and materials.
- Improved access to Pacifica's libraries for everyone in our community.
