

BETTER LIBRARIES FOR PACIFICA

Transforming Sharp Park and Sanchez Libraries

Pacifica's Libraries are the oldest and smallest in the entire San Mateo County Library system. Pacifica deserves better.

The Pacifica Library Modernization Project envisions a new, full-service Sharp Park Library building open 7 days a week, and an "Open Access" model at Sanchez Library, so residents can access library materials at all hours.

Learn more about the proposal to modernize our libraries at pacificallibraryproject.com

Pacifica needs to update its library buildings to provide safe learning and social environments for children, teens, families, and adults of all ages for generations to come.
